

Meeting Minutes – Practical Exercise 5 (Data Cleaning)

Date:	March 20, 2026
Meeting Mode:	Online Discussion
Course:	BBT 3201 – Artificial Intelligence
Topic:	Airplane Crashes Dataset – Data Cleaning & Analysis

Members Present

1. 136532 Peter Maina
2. 136395 Jeff Kioko
3. 121353 Samuel Brian
4. 120751 David Mwangi
5. 102155 Larry Otworì

Key Discussion Points

- Reviewed requirements for Practical Exercise 5 and dataset from Kaggle.
- Agreed on notebook structure with each question in a separate cell.
- Discussed handling missing data using appropriate methods (mean, median, or fill values).
- Defined creation of 'fatality_locations' dataframe and required transformations.
- Planned implementation of sorting, filtering, and visualization (pie chart).
- Assigned GitHub workflow: repository creation (Data-Wrangling) and forking by all members.
- Agreed to include meeting minutes as evidence of group collaboration.
